- Developed and deployed full-stack web applications to a professional standard
- Delivered individual and team projects, remotely, including participation in a hackathon

Brunel University MA Journalism

University of Lincoln BSc Forensic Science, (Royal Society of Chemistry Accredited)

KEY PROJECTS

Title: crimechecker.co.uk

Tech Used: REACT • REDUX TOOLKIT • CSS • API • REACT-MINIMAL-PIE-CHART

Purpose: An educational web application that allows the user to search for crime and stop searches conducted by the police by area. Data is presented in graph form using react-minimal-pie-chart. The charts are dynamically inserted from the API. The app can allow monitoring of crime that may affect you in your area.

Title: The Simpsons Quote App

Tech Used: REACT • REDUX TOOLKIT • CSS • API

Purpose: The app features quote cards with data provided by the Simpsons API, a search bar that filters the results by character. The user has the ability to like/unlike a character and delete the characters' quote cards he does not like. The app also includes a counter that showcases the number of liked characters.

Title: Agify App

Tech Used: HTML • CSS • JAVASCRIPT

Purpose: AN app that utilises data from the Agify API. It will predict your age based on your age.
